

Well proven, simple and almost indestructible: The 'Kozy' waste/multi oil heater from Kroll

Experience gained over many decades makes the Kroll waste/multi oil heater reliable, cost effective and an environmentally friendly heating product.

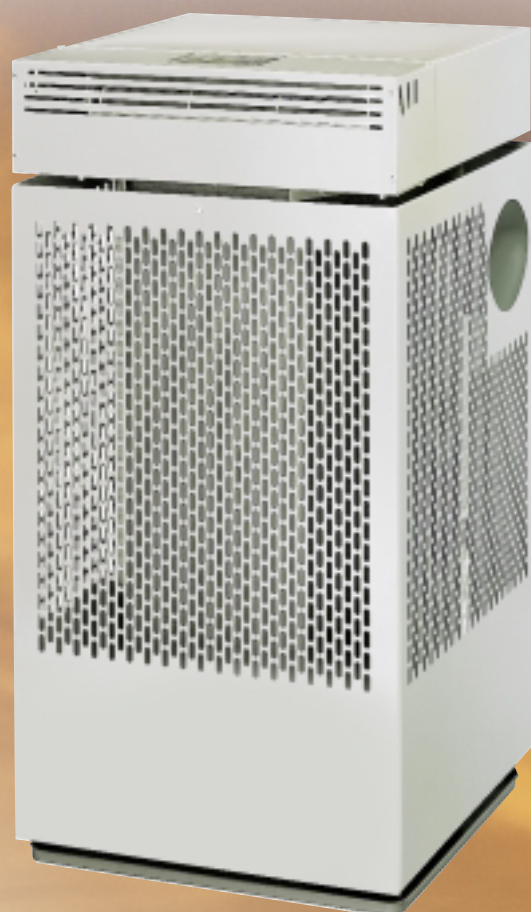

In times of rising fuel costs, the pay back period for a Kroll waste/multi oil heater is very short. Utilizing your waste oil, you get an effective warm air heater with no fuel costs, and no fees to pay for the collection and disposal of your waste oil.

The Kroll Kozy is particularly suitable for heating automotive workshops and garages, warehouses, small greenhouses, etc.

The Kroll Kozy is easy to install and immediately ready to use out of the box.

The Kozy features –

- Internal vaporising burner
- High/Low manual heat regulation
- Flame failure security thermostat
- Overflow security switch
- Self contained oil tank of 25 litres
- Manual Ignition
- Durable and safe powder coated casing

The Kozy comes complete with a high performance fan. The quiet running, high performance fan enables a quicker and more extensive warm air distribution.

Technical data and dimensions					
Heat Input	kW	35	Electrical	V/A	230~/0.4
Heat Output	kW	29	Content of tank	litre	25
Air Rate	Cu-m/hr	580	Diameter of flue	mm	150
Nominal Air Rate	"	460	Width	mm	600
Temp rise of air	Centigrade	80	Depth	mm	770
Oil consumption	kg/h	2 Low, 3 Hi	Height	mm	1170
Electrical Power	kW	0.09	Weight	kg	85
